“ When setting up our new company, Merah Putih decided to use Lumonata web services based purely on how they presented their own business online. As a restaurant that takes pride in constantly innovating, changing and updating, our high traffic website is constantly in need of attention, detail and nearly always at the last minute. We have now been working together for 3 years, and are not only completely satisfied with what they do for us, but are also more than happy to recommend them as one of our trusted partners.

“ Lumonata is great. I have known Purwa for 4 years and when it was time to set up an identity package and a simple yet effective website for a new biz, they were the first and only call. Excellent design and Purwa and Wahya listened to my comments and ideas throughout the process (in english too)...so I got the quality product that I wanted. I am marketing to both Asia and N America/Europe so getting the details right was very important and they did. Thanks Lumonata.
